

How I use drones

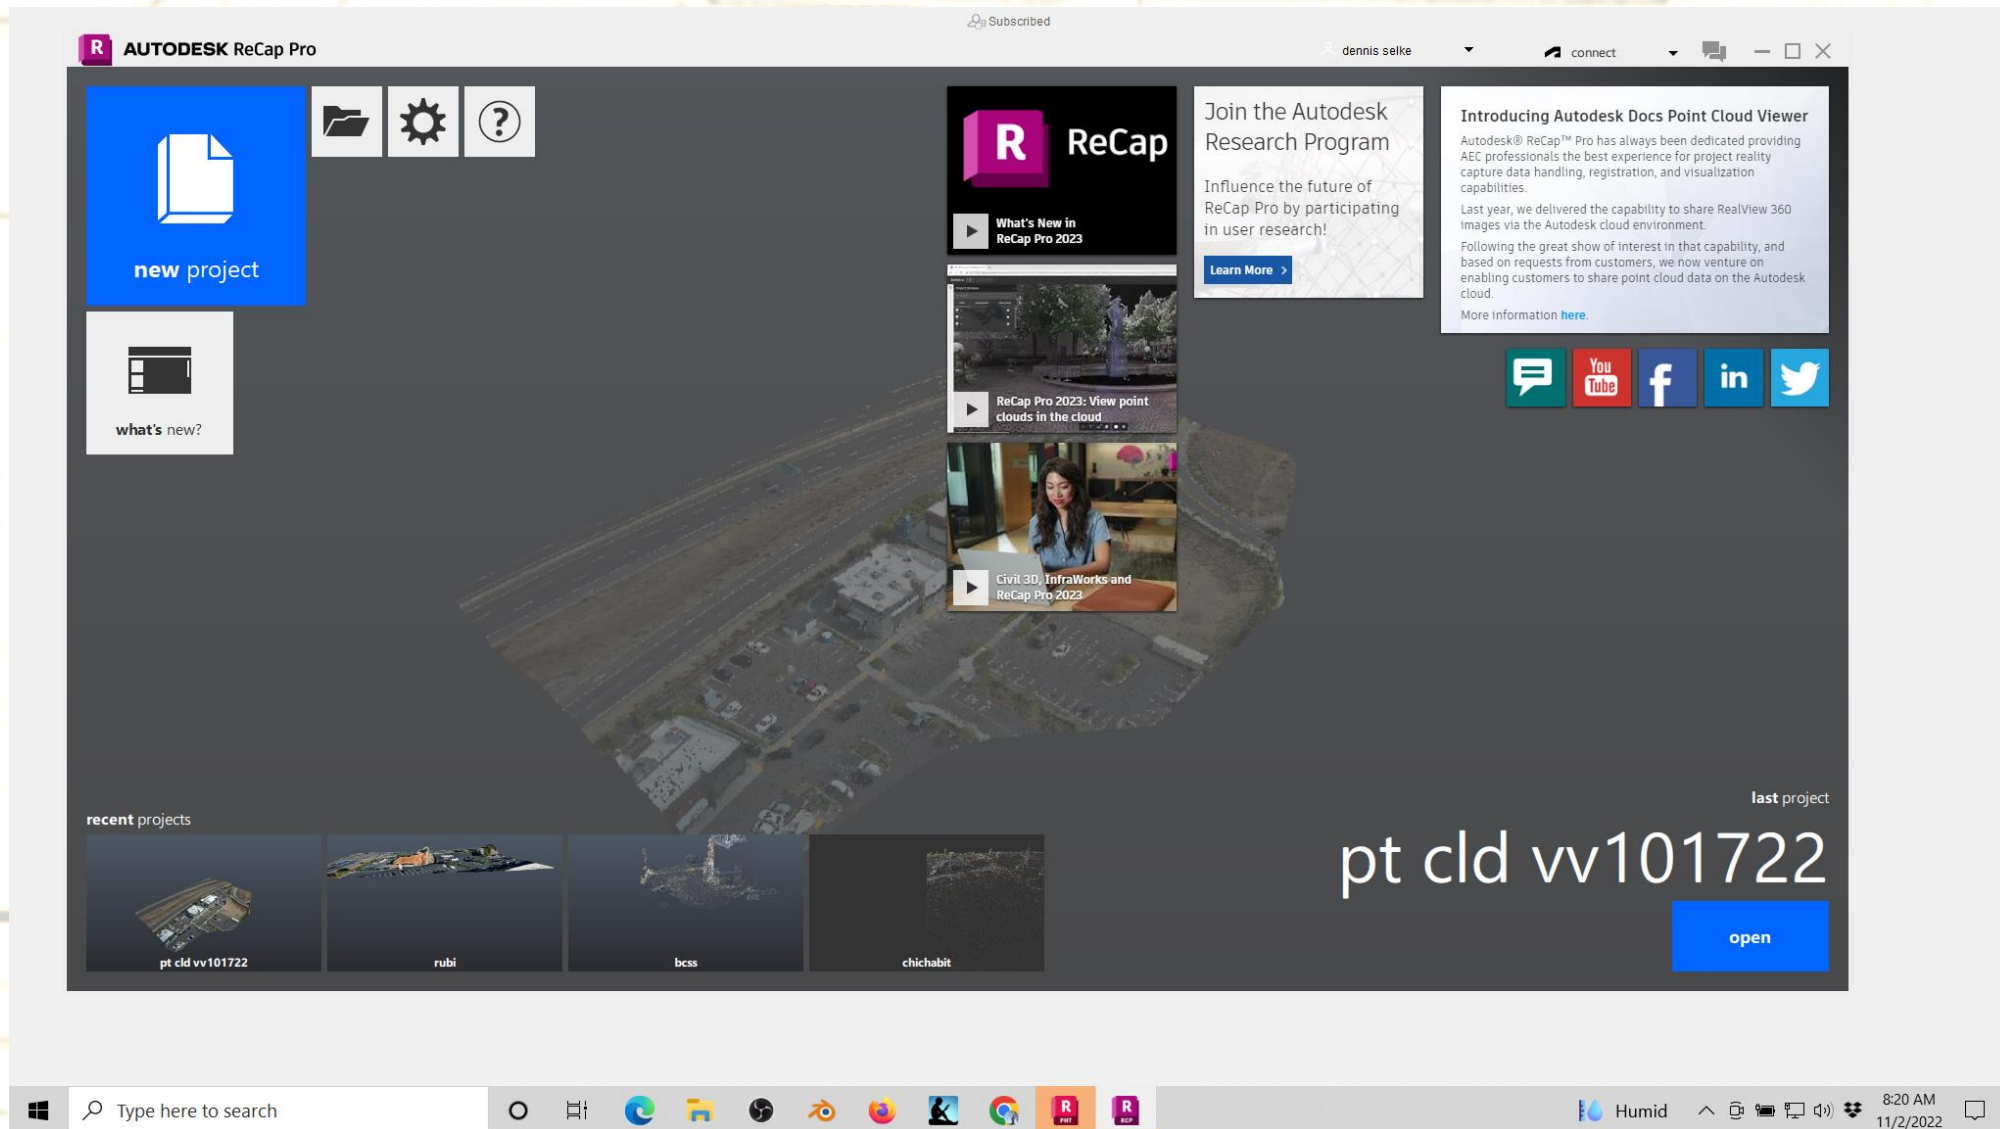

In the classroom, design work and for epic vacation travel

By Dennis Selke

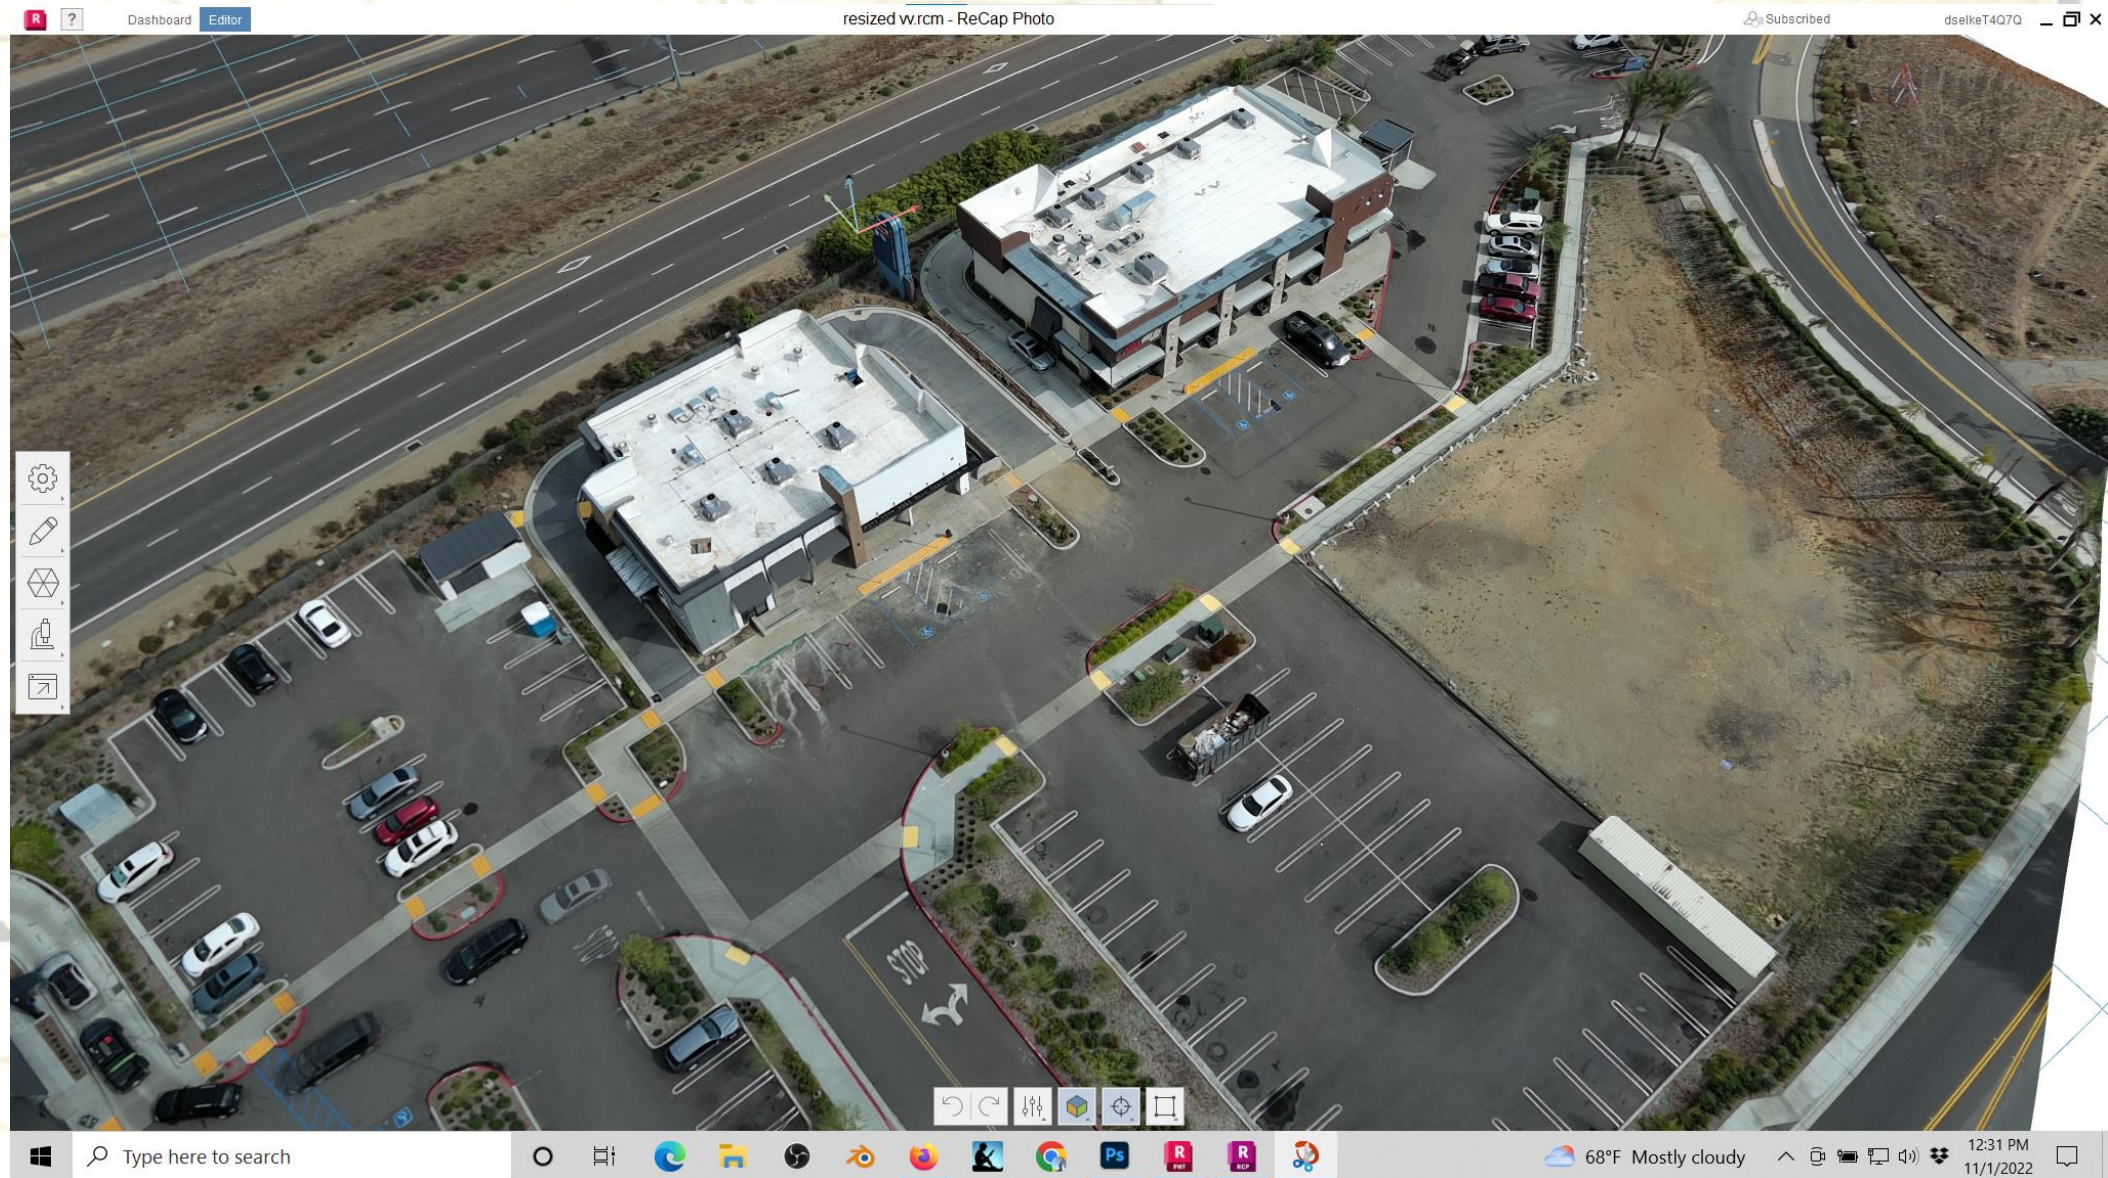

What can we do with BIMs?

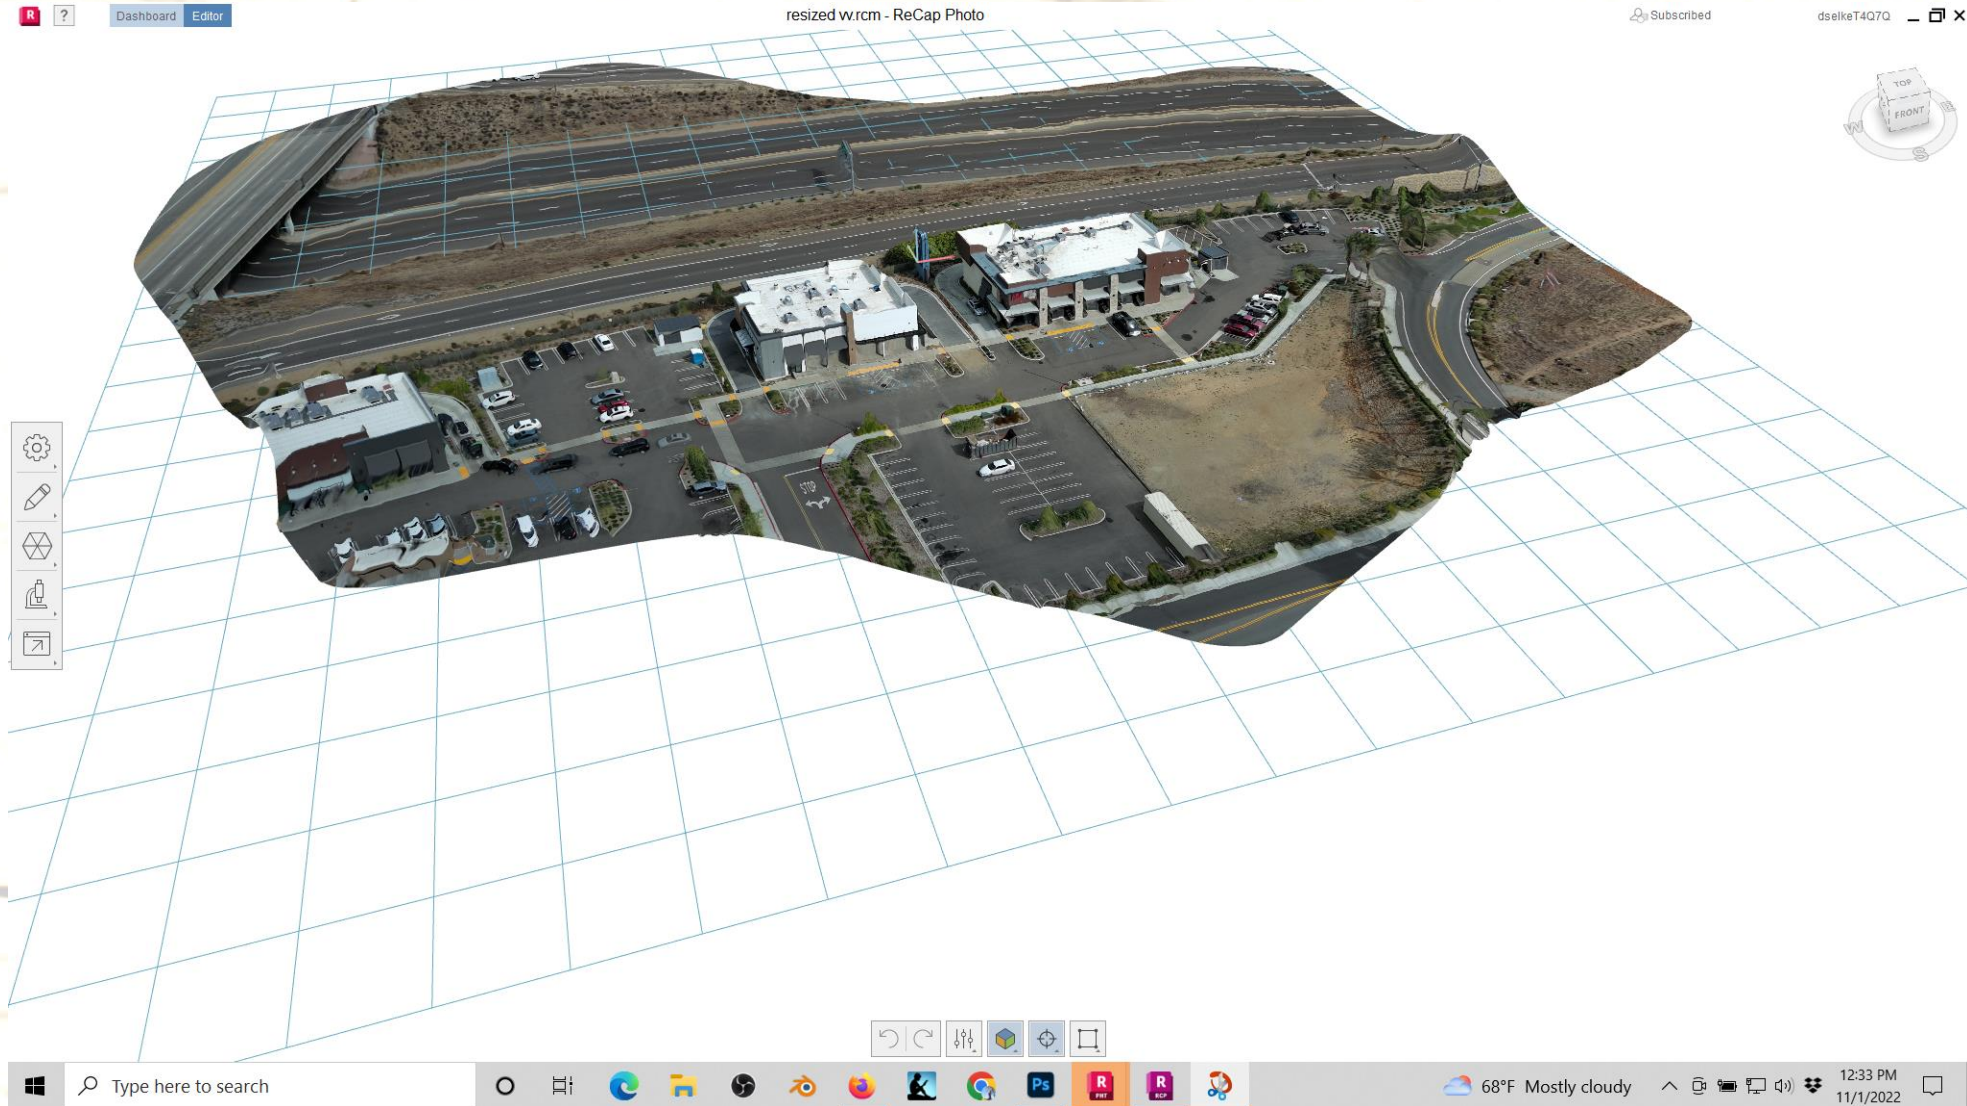

Coordination models from jpgs – Autodesk ReCap Pro

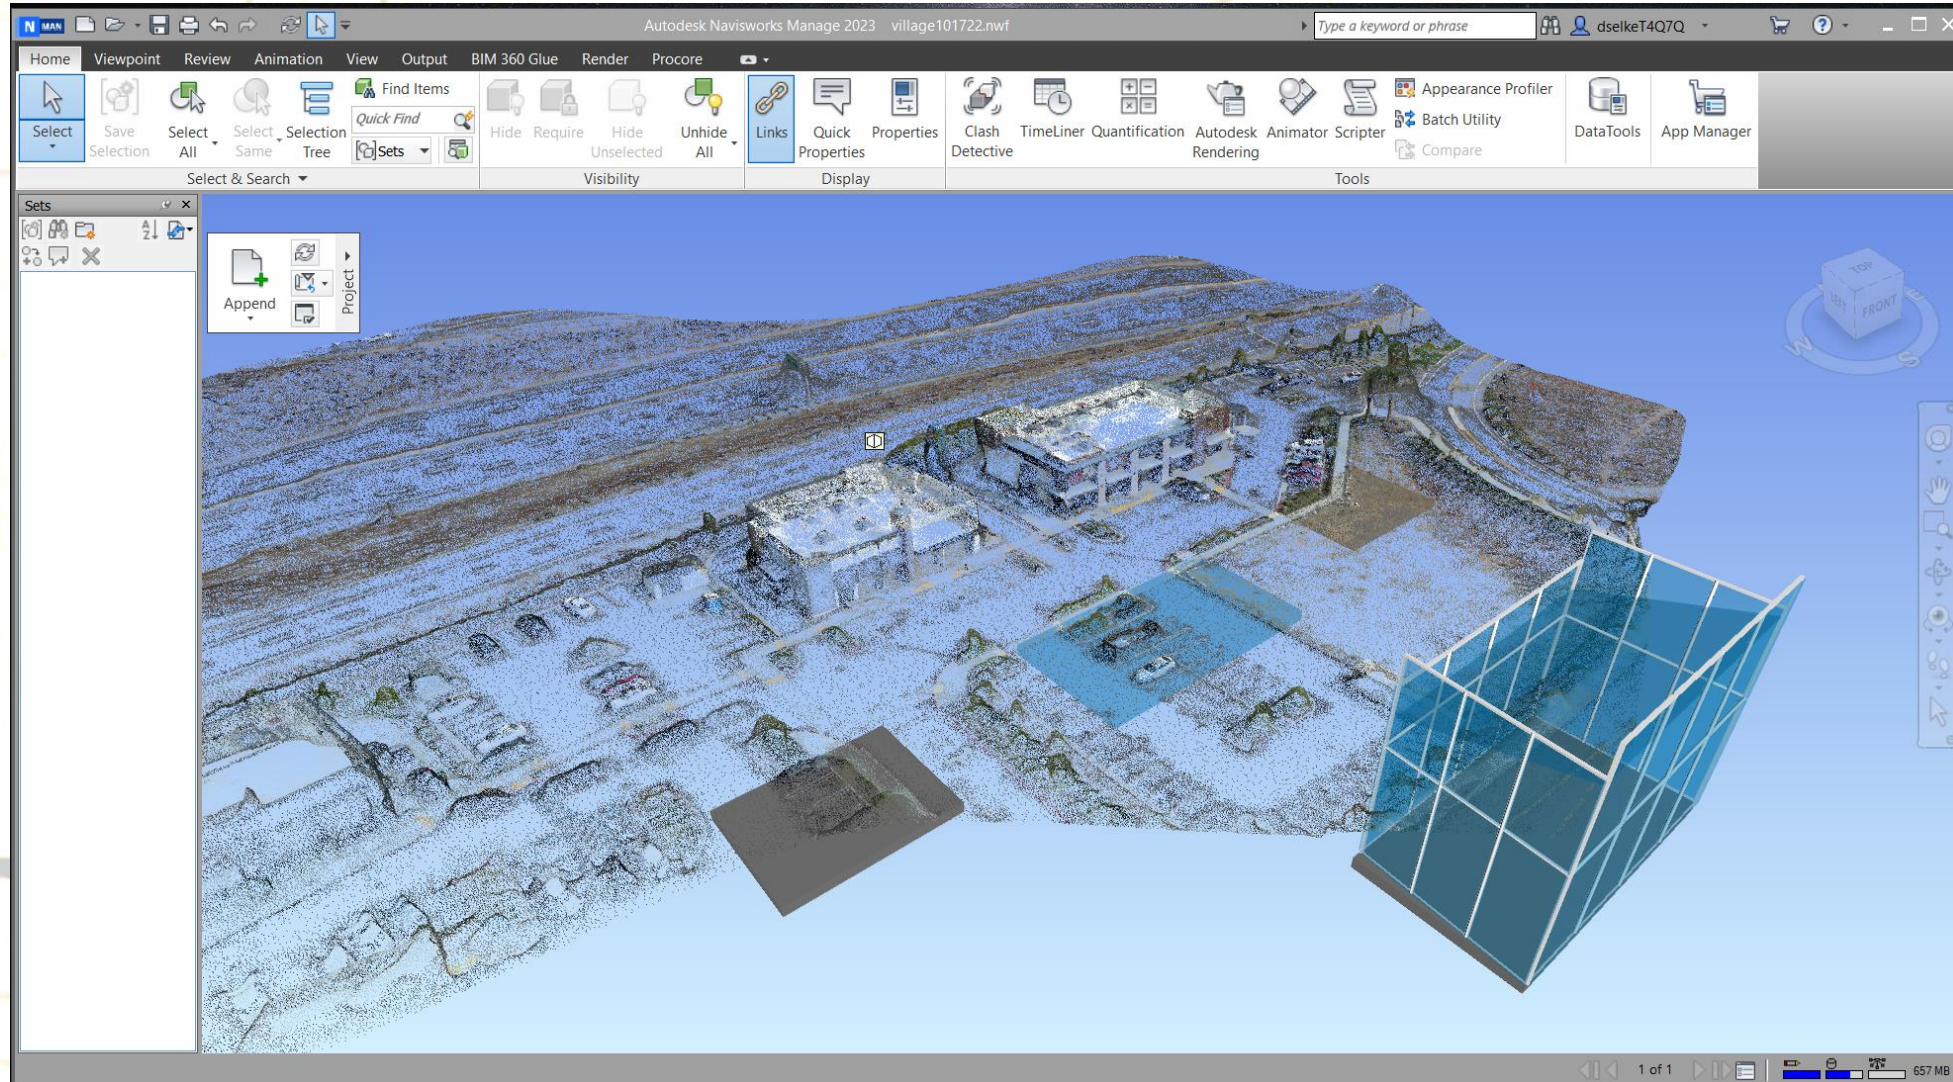

Detail mapping and models 40 photos

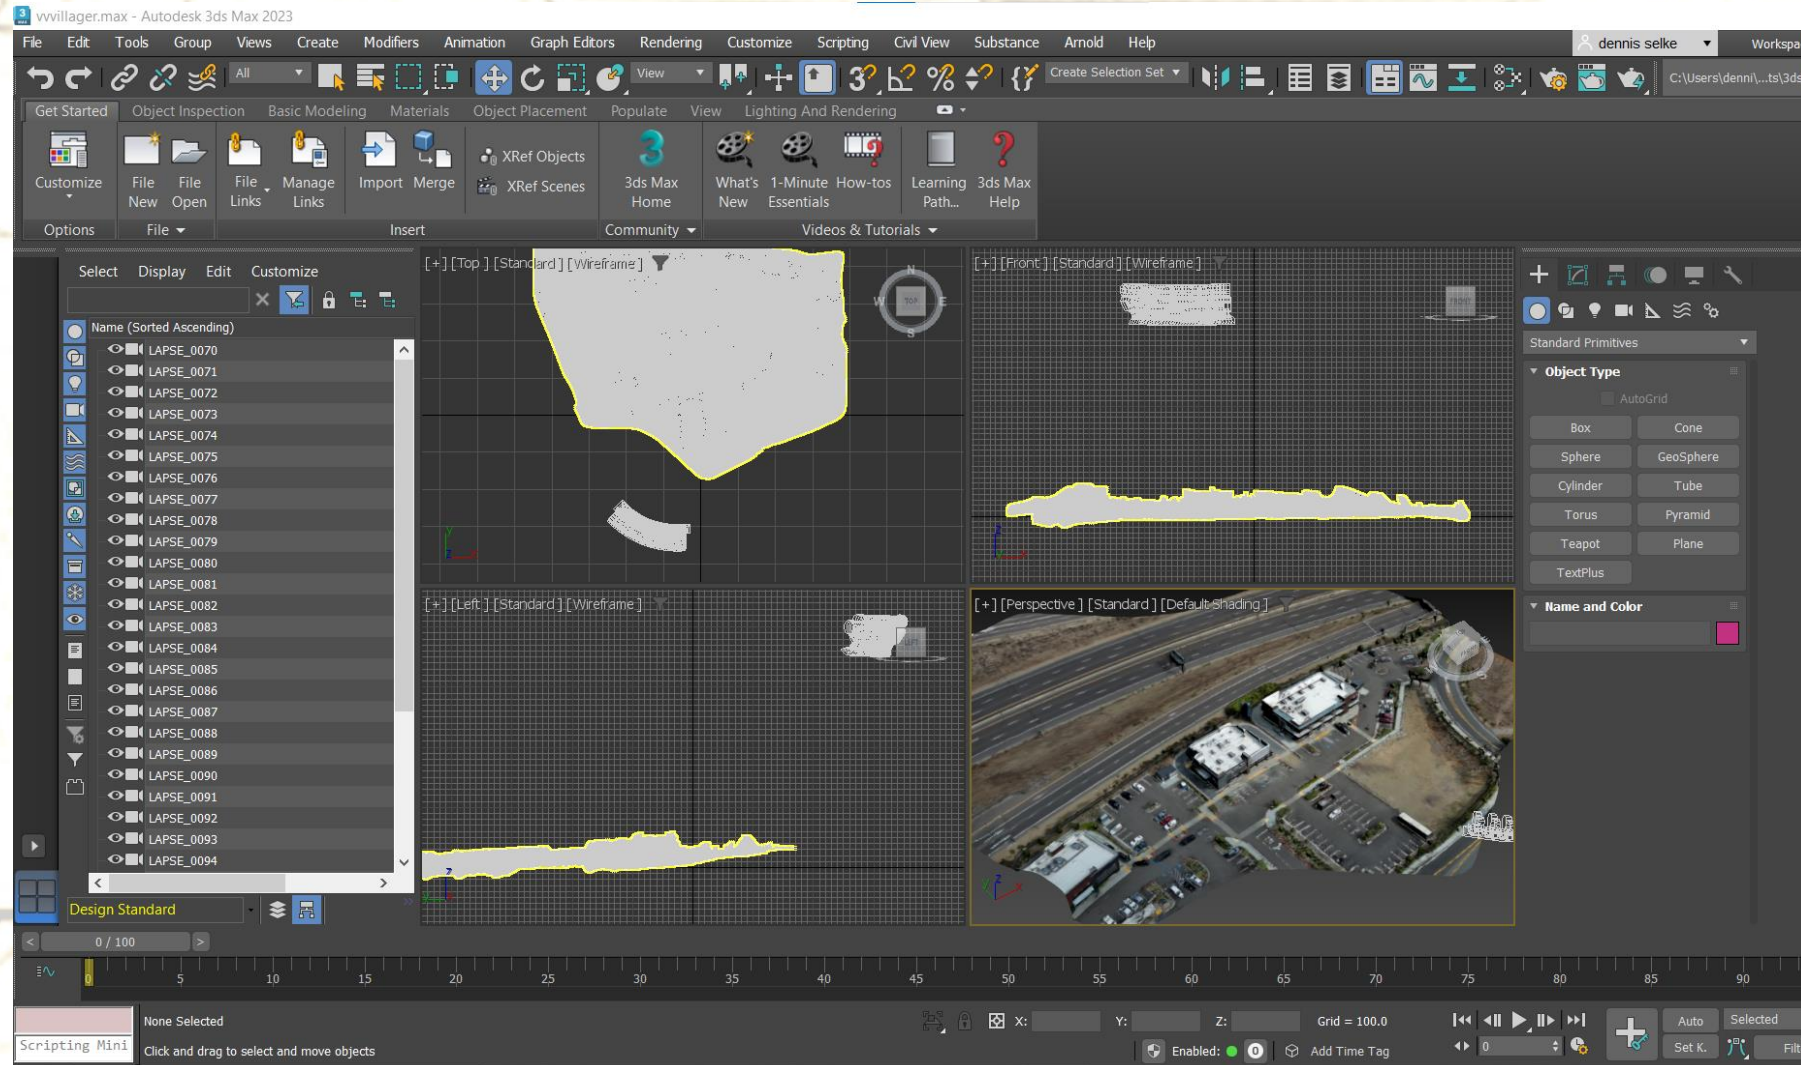

Detailed mapping and terrain models- ReCap

Coordination models - Navisworks

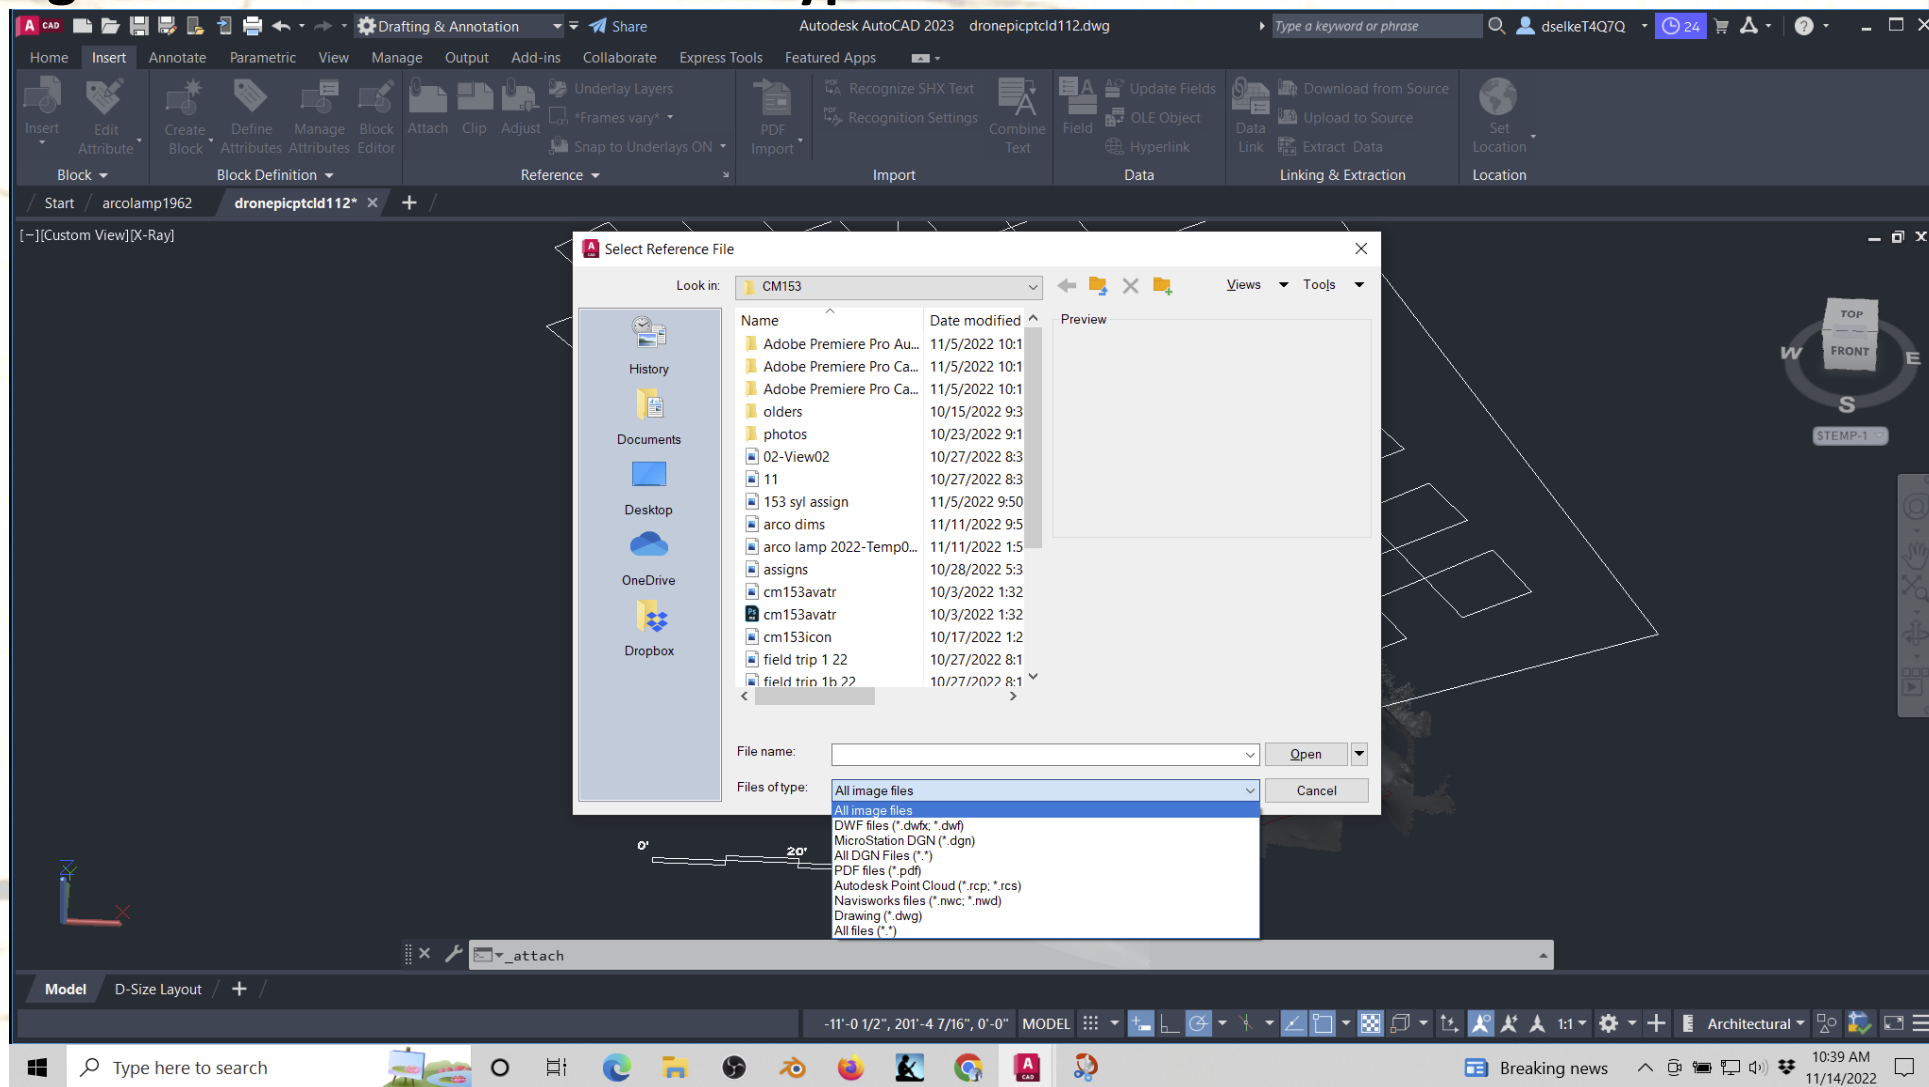

Coordination models with 3ds max or Rhino

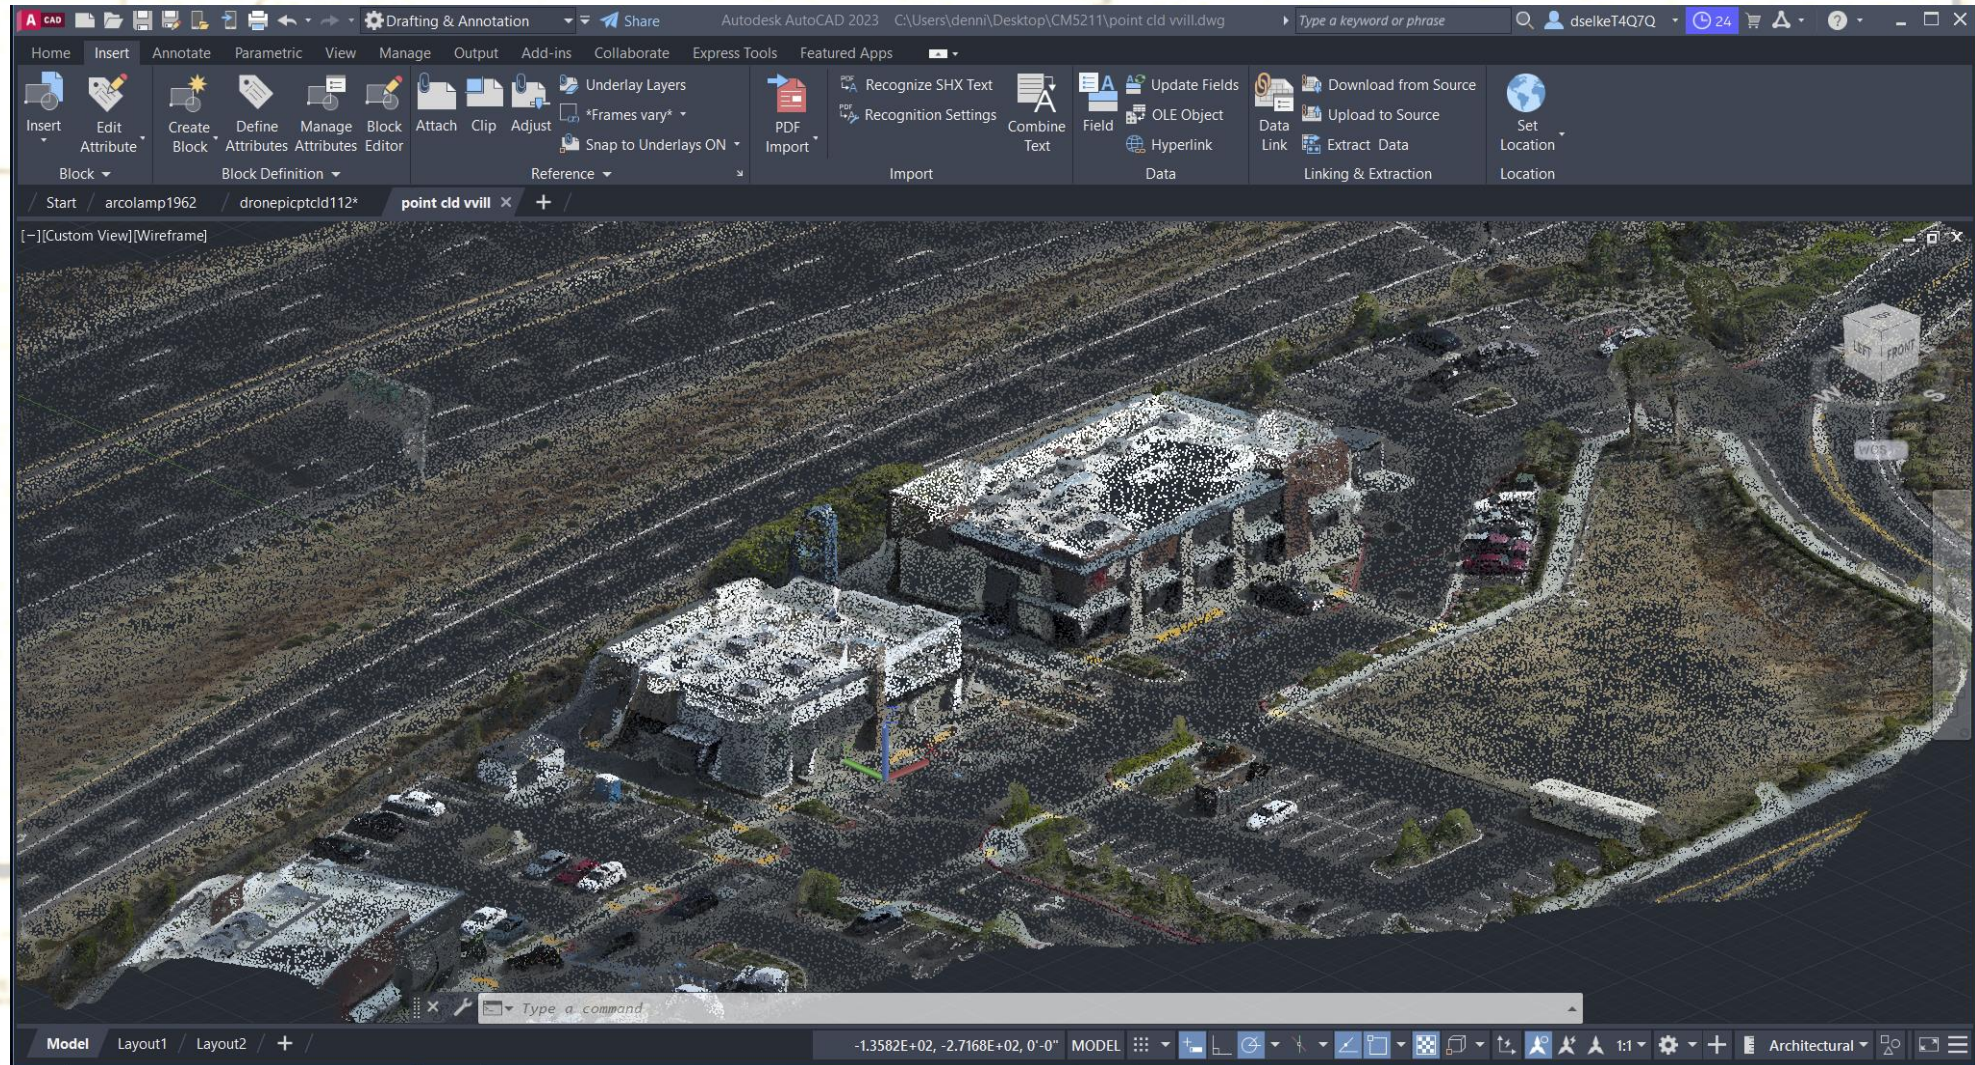

Point Cloud / 3d

Integration with AutoCad – file types

Point Cloud / 3d

Integration with AutoCad – insert/ attach RCP and RCS

How I use drones

- Looking at sites for class applications

<https://youtu.be/Kwmw9Y6z1Bk>

How I use drones

- Progress on jobsites based on my current subjects

How I use drones

- Flying to practice and build solid skills

<https://youtu.be/e2fGgXTS7HE>

How I use drones

- I am interested in sustainable design
- Recent travel to rent a net zero water and power vessel house in Taos NM
- No Utilities run out to this location

<https://youtu.be/g8L9E3jhL5Q>

Earthships can be rented

- Earthship Vessels are not connected to water or electrical utilities
- They have 13 plus solar panels and 5,000 plus gallons of water collection

https://youtu.be/LEGkk_aL3pw

Outside The Geofence

- 20 miles N of Taos
- Flying in a KP7 storm made the home point off 100 yards N and 100yd west ! w/ my Nano

RIO Bridge

- 1000 views on my youtube

13TH STREET

Tello - during hitting a tree

Tello - after hitting a tree, it survived a couple more crashes after that, finally was blown into a tree trunk and bounced into a pond in LaQuinta

Tello - falling down a tree

It all started with a Tello in Spring 2021, Now My best is the EVO nano+
